

Getting Set Up on ADP

Your guide to gathering everything we need to move your payroll off Paycor — cleanly, accurately, and on time.

Prepared for:	_____
Target go-live:	July 01, 2026 (start of Q3 2026)
Prepared by:	Your ADP Partner Team
Date prepared:	June 15, 2026

Welcome — here's what to expect

Switching payroll providers mid-year sounds daunting, but it comes down to one thing: handing us a complete and accurate picture of your company, your people, and what's already been paid this year. This guide breaks that into plain-English checklists. Work through each section, gather the documents, and we'll handle the rest of the build.

The single most important step

Because we're switching at the start of Q3 2026 — not on January 1 — your **year-to-date payroll totals** have to carry over so W-2s and quarterly tax filings come out correct at year-end. The reports you pull out of Paycor (Section 2) are the backbone of the whole setup. Pull them **before** your Paycor access is turned off.

How to use this guide

- 1 Each section is a checklist. Tick items off as you collect them.
- 2 Anything you can't find, just flag it — we'll help you track it down.
- 3 Send everything through the secure link we provide. Don't email Social Security numbers or bank details in plain text.

Your switch-over timeline

A clean cutover means the last Paycor run and the first ADP run line up with no gap and no overlap. Here's the rough sequence:

When	What happens	Who
3–4 weeks out	Gather company, tax, and employee info (this guide)	You
2–3 weeks out	Pull year-to-date reports from Paycor	You
2 weeks out	We build your ADP company, employees, and YTD balances	ADP
1–2 weeks out	Parallel review — we verify totals match Paycor	Together
Final Paycor run	Run your last payroll on Paycor as normal	You
July 01, 2026	First payroll on ADP — go live	Together
After go-live	Confirm tax agencies are pointed to ADP	ADP

Why quarter-start timing helps you

Going live at the start of Q3 2026 means ADP files clean, full-quarter tax returns from day one. It avoids splitting a single quarter between two providers, which is the most common source of year-end tax headaches.

1. Company information

The legal foundation of your payroll account. Most of this lives on your formation documents, prior tax filings, or in Paycor's company setup screens.

- ☐ Legal business name (exactly as registered with the IRS)
- ☐ DBA / trade name, if you use one
- ☐ Federal Employer Identification Number (FEIN / EIN)
- ☐ Business structure (LLC, S-corp, C-corp, sole prop, partnership)
- ☐ Legal / mailing address and all physical work locations
- ☐ Primary contact for payroll (name, title, email, phone)
- ☐ Owner / signer name and title (authorizes bank debits & tax filings)
- ☐ NAICS or industry code
- ☐ Number of employees (and 1099 contractors, if any)

Federal & state tax accounts

ADP files and deposits your payroll taxes, so we need every active tax account ID and rate. Missing a state ID is the #1 cause of setup delays.

Tax account	What we need
Federal EIN	9-digit IRS number + deposit frequency (monthly / semiweekly)
State withholding	State income-tax account ID for each state you have employees in
State unemployment (SUI/SUTA)	Account ID + your current-year experience rate (%)
Local / city taxes	Any local income or occupational tax IDs (varies by location)
Power of Attorney	Some states need a signed POA so ADP can file — we'll send forms

Don't have your state rates handy?

Your SUI rate changes yearly and is on the rate notice the state mails you each winter. It's also visible in Paycor under your tax setup. Send us a screenshot if you're unsure — wrong rates mean wrong deposits.

2. Pull these reports from Paycor

Do this while you still have Paycor access

Once you give notice, your login can be shut off quickly. Export and save these reports now — as PDF and Excel/CSV where possible. They are how we rebuild your year-to-date numbers in ADP.

In Paycor, most of these live under **Reports** → **Payroll** and **Reports** → **Tax**. Pull them for the current calendar year through your last Paycor pay date.

- ☐ **Payroll register** for every pay date this calendar year
- ☐ **Year-to-date (YTD) earnings & deductions** summary by employee
- ☐ **Quarterly tax returns** already filed this year (Form 941 + state)
- ☐ **Tax deposit / liability history** for the year
- ☐ **W-2 preview** or last year's W-2s and W-3
- ☐ **Employee roster** export with all demographic fields
- ☐ **Deduction & benefit setup** report (what's withheld and how)
- ☐ **PTO / accrual balances** as of your last run
- ☐ **Contractor / 1099 payment** totals, if you pay any
- ☐ **Garnishment / wage-order** documents and balances, if any

What “year-to-date” has to include

For each employee: gross wages, each earning type (regular, OT, bonus), pre-tax and post-tax deductions, employer contributions, and every tax withheld (federal, Social Security, Medicare, state, local). These totals must match Paycor to the penny before we go live.

3. Employee information

We need a complete record for every active employee (and anyone paid this year who has since left — they still get a W-2). Most of this exports straight from the Paycor employee roster.

Category	Details needed
Identity	Full legal name, SSN, date of birth, home address
Contact	Personal email and phone (for self-service onboarding)
Job	Title, hire date, department / location, full- or part-time
Pay	Pay rate, salary or hourly, standard hours, pay frequency
Tax setup	Federal & state W-4 elections (filing status, allowances)
Direct deposit	Bank routing & account number, account type, splits
Status	Active, on leave, or terminated this year (with term date)

Supporting documents to collect

- ☐ Signed Form W-4 (federal) and state equivalent for each employee
- ☐ Form I-9 and work authorization on file
- ☐ Voided check or bank letter for each direct-deposit account
- ☐ Any existing offer letters or comp-change records, if handy

Make onboarding easier on yourself

ADP can invite employees to enter their own address, W-4, and direct deposit through secure self-service. If you'd rather not collect bank details yourself, tell us — we'll turn that on.

4. Pay setup, deductions & banking

Pay schedule & policies

- ☐ Pay frequency (weekly, bi-weekly, semi-monthly, monthly)
- ☐ Pay period start/end dates and check dates for the rest of the year
- ☐ Overtime rules and any shift differentials
- ☐ PTO / sick / vacation accrual policies and current balances
- ☐ Holiday pay and bonus practices

Deductions & benefits

- ☐ Health / dental / vision premiums (employee & employer share)
- ☐ Retirement plan (401k/IRA): provider, match formula, deferral amounts
- ☐ HSA / FSA contributions
- ☐ Garnishments or child-support orders (with case numbers and balances)
- ☐ Any other recurring pre-tax or post-tax deductions

Banking & funding

- ☐ Business bank account that funds payroll (routing + account number)
- ☐ Voided business check or bank verification letter
- ☐ Name & title of person authorized to approve ACH debits
- ☐ Workers' comp policy details (if using pay-as-you-go integration)

General-ledger mapping (optional but worth it)

If you want payroll to flow neatly into QuickBooks, Xero, or another accounting system, send your chart of accounts or current GL mapping. We'll line up the export so your bookkeeper's life gets easier.

Quick master checklist

A one-page summary you can print and work through. Detail for each item is in the sections above.

Company & tax

- ☐ Legal name, EIN, entity type, addresses, payroll contact
- ☐ State withholding + SUI account IDs and current SUI rate
- ☐ Local tax IDs and any Power-of-Attorney forms signed

From Paycor (before access ends)

- ☐ YTD payroll register + earnings/deductions by employee
- ☐ Filed quarterly returns (941 + state) and deposit history
- ☐ Employee roster export, deduction setup, PTO balances

Employees

- ☐ Identity, pay, and W-4 details for every employee paid this year
- ☐ Direct-deposit info (or opt into employee self-service)
- ☐ W-4, I-9, and voided checks on file

Pay setup & banking

- ☐ Pay frequency, schedule, OT and PTO policies
- ☐ Benefits, retirement, and garnishment details
- ☐ Funding bank account + voided check + authorized signer

Questions along the way?

You don't have to figure this out alone. If anything on these lists is unclear or hard to find, reach out and we'll walk through it with you. The more complete the information up front, the smoother your first ADP payroll will run.
