

Getting Set Up on ADP

Your guide to gathering everything we need to move your payroll off Paycor — cleanly, accurately, and on time.

Date prepared:	June 15, 2026

What we need from you

To finish your ADP setup we only need two things: your **year-to-date payroll balances** and your **employee information**. Both export straight out of Paycor. Because we're switching mid-year, the balances are what keep your W-2s and Connecticut tax filings correct at year-end.

Pull these from Paycor before your access ends

Once you give notice, your Paycor login can be turned off quickly. Export the reports below now — as Excel/CSV and PDF — and send them through the secure link we provide. Don't email Social Security or bank numbers in plain text.

1. Year-to-date balances

One report covers most of this: in Paycor, run a **Year-to-Date (YTD) earnings & deductions summary by employee** for the current calendar year through your last Paycor pay date. For each employee we need:

- ☐ Gross wages YTD, broken out by earning type (regular, OT, bonus)
- ☐ Pre-tax deductions YTD (401k, health, HSA/FSA, etc.)
- ☐ Post-tax deductions YTD
- ☐ Employer contributions YTD (401k match, etc.)
- ☐ Federal income tax withheld YTD
- ☐ Social Security and Medicare withheld YTD (employee + employer)
- ☐ Connecticut income tax withheld YTD
- ☐ CT Paid Family & Medical Leave withheld YTD (0.5% employee)
- ☐ Net pay YTD

Also send (to confirm the totals tie out)

- ☐ Most recent payroll register from Paycor
- ☐ Quarterly returns already filed this year (Form 941 + CT returns)
- ☐ Tax deposit / liability history for the year

These have to match to the penny

We load each employee's balances into ADP exactly as Paycor reported them, then verify the company totals match before your first run. Accurate balances now = clean W-2s in January.

2. Employee information

A complete record for everyone paid this year — including anyone who has since left, since they still receive a W-2. The Paycor **employee roster export** has most of these fields already.

Category	Details needed
Identity	Full legal name, SSN, date of birth, home address
Contact	Personal email and phone
Job	Title, hire date, location, full- or part-time
Pay	Pay rate, salary or hourly, standard hours, pay frequency
Tax setup	Federal W-4 and Connecticut CT-W4 elections
Direct deposit	Bank routing & account number, account type, any splits
Status	Active, on leave, or terminated this year (with term date)

Let employees enter their own details

ADP can invite each employee to enter their address, W-4/CT-W4, and direct deposit through secure self-service — so you don't have to collect bank info yourself. Just say the word and we'll turn it on.

Connecticut tax accounts

So ADP can file and deposit your Connecticut taxes, send these account numbers (they're in your Paycor tax setup):

Account	What we need
Federal EIN	9-digit IRS number
CT withholding (DRS)	Connecticut Tax Registration Number + deposit frequency
CT unemployment (CTDOL)	Registration number + current-year contribution rate (%)
CT Paid Leave	CT Paid Leave Authority registration (0.5% employee deduction)

Questions?

If anything here is unclear or hard to find in Paycor, reach out and we'll walk through it with you.
