

Getting Your Reports Out of QuickBooks Online

A simple, step-by-step guide for your switch to ADP

Hi — here's all you need to do

To move your payroll over to ADP, I need a handful of reports out of QuickBooks. This guide shows you exactly where to click to find each one and save it. Take your time — you can't break anything, and nothing here changes your payroll.

If you get stuck, stop and call me

QuickBooks occasionally moves buttons around, so if a screen doesn't match these steps exactly, don't worry — just call and we'll do it together on the phone. When you save each report, save it as a PDF and send them all to me through the secure link I gave you (not regular email — these have Social Security and bank numbers in them).

Three things to know first

A. Signing in

- 1 Open your web browser and go to **qbo.intuit.com**, then sign in.
- 2 Look at the **menu down the left-hand side** — that's how you get everywhere. The two you'll use are **Reports** and **Taxes**.

B. Saving a report as a PDF

- 1 Once a report is on the screen, look at the **top-right corner**.
- 2 Click the **printer icon**, or the **Export** button (a little box with a down-arrow) and choose **Export to PDF**.
- 3 Save it somewhere easy to find, like your **Desktop**. Give it a clear name like "Payroll Details Q2".

C. Changing the dates on a report

- 1 At the top of most reports there are two date boxes — a **From** date and a **To** date.
- 2 Click each one, pick the date, then click the blue **Run report** button to refresh it.

A simple, step-by-step guide for your switch to ADP

Part 1 — Tax forms you already filed

These live in the **Taxes** area, not Reports. Here's how to get there for all three:

- 1 On the left menu, click **Taxes**.
- 2 At the top, click **Payroll Tax**.
- 3 Click the **Filings** tab.
- 4 Scroll down to **Filed** (or “Quarterly forms”). Your filed forms are listed here by quarter.

If you don't see them here

Some accountants file these outside of QuickBooks. If a form isn't listed, just let me know — don't go hunting. The “(if applicable)” ones below may simply not exist for your business, and that's fine.

☐ 1. Q1 941 (federal)

Your federal payroll tax return for January–March.

- 1 In the Filed list, find the **Q1 (Jan–Mar)** row.
- 2 Click **941** — it opens as a PDF.
- 3 Save it (see “Saving a report as a PDF” on page 1).

☐ 2. Q1 State return — SIT / SUI (if applicable)

Your state income-tax (SIT) and state unemployment (SUI) returns for Q1.

- 1 In that same Filed list, look for your **state forms** under Q1.
- 2 Click each one to open it, and save each as a PDF.

☐ 3. Q1 Local return (if applicable)

Only some cities/towns have a local payroll tax. You may not have one.

- 1 In the same list, look for any **local / city** form under Q1.
- 2 If one is there, open and save it. If not, skip this — no problem.

Part 2 — “Payroll Details” reports

This is the big one. It's the **same report run three times**, just with different dates each time. Save a separate PDF for each.

How to open it (do this once):

- 1 On the left menu, click **Reports**.
- 2 In the **search box** at the top, type **Payroll Details**.
- 3 Click **Payroll Details** when it appears. It already lists each employee separately, which is exactly what I need.

☐ 4. Current Quarter — Payroll Details (summed by employee)

April 1 through your last payroll before moving to ADP.

- 1 With the Payroll Details report open, set the dates below.
- 2 Click **Run report**, then save as a PDF.

Run it for these dates	Which period
April 1 → last payroll before ADP	Current quarter (Q2)

☐ 5. Prior Quarter — Payroll Details (summed by employee)

All of last quarter, January 1 through March 31.

- 1 Change the dates to the ones below.
- 2 Click **Run report**, then save as a separate PDF.

Run it for these dates	Which period
January 1 → March 31	Prior quarter (Q1)

☐ 6. Year to Date — Payroll Details (summed by employee)

Everything so far this year, January 1 through your last check date.

- 1 Change the dates to the ones below.
- 2 Click **Run report**, then save as a third separate PDF.

Run it for these dates	Which period
January 1 → last check date before ADP	Year to date

Part 3 — Taxes you've already paid (Q2)

☐ 7. Payroll Tax Liability report — Q2

Shows the payroll taxes that have been paid/deposited this quarter.

- 1 On the left menu, click **Reports**.
- 2 In the search box, type **Payroll Tax Liability** and click it.
- 3 Set the dates to **April 1 → June 30** (Q2).
- 4 Click **Run report**, then save as a PDF.
- 5 *Tip:* if you'd rather see a simple list of payments made, the **Payroll Tax Payments** report shows each deposit — either one works.

Part 4 — Employee information

I need a full record for **everyone paid this year** — even people who've left, since they still get a W-2. Here's where it all lives:

- 1 On the left menu, click **Payroll**, then **Employees**.
- 2 Click an employee's **name** to open their profile.
- 3 Their **Social Security number, date of birth, and address** are under **Personal info** (or “Profile”).
- 4 Their **bank / direct deposit** details are under **Payment method**.
- 5 *Shortcut:* in **Reports**, search **Employee Details** to pull a lot of this into one report you can save as a PDF.

What I need for each person:

Category	Details
Identity	Full legal name, Social Security number, date of birth, home address
Contact	Personal email and phone number
Job	Title, hire date, full- or part-time
Pay	Pay rate (salary or hourly), standard hours, pay frequency
Tax setup	W-4 elections (filing status); state W-4 if your state has one
Direct deposit	Bank routing number, account number, and account type (checking/savings)

Category	Details
Status	Active, on leave, or left this year (with the date they left)

Keep this private

These reports contain Social Security and bank numbers. Please send everything through the secure link I provided — never in a regular email or text. When in doubt, call me and we'll do it together.
